FOR IMMEDIATE RELEASE

BOSON RELEASES EXSIM-MAX™ FOR MICROSOFT® 70-444

Nashville, Tenn. September 21, 2007 – Boson Software, LLC, a provider of premier learning solutions for IT professionals seeking certification, announced today the release of ExSim-Max for Microsoft 70-444. This new exam simulation product covers the Microsoft 70-444: PRO: Optimizing and Maintaining a Database Administration Solution by Using Microsoft SQL Server 2005 exam.

ExSim-Max questions are of the highest quality, well-written, technically accurate and completely representative of the actual exam. The ExSim-Max for Microsoft 70-444 question types include: single-answer multiple choice, multiple-answer multiple choice, drag and drop and interactive simulation items. "In addition to the most realistic exam questions available, the depth of the explanations and the quality of the references in these ExSim-Max products will provide a superior exam simulation experience for our customers who are pursuing their MCITP: Database Administrator certification," said John Oden, Director of Development for Boson.

The new ExSim-Max Kit for MCITP: Database Administrator with MCTS SQL Server 2005 includes the ExSim-Max products for the Microsoft 70-431, 70-443 and 70-444 certification exams. "With the release of our new kit, we are offering our customers a complete exam simulation solution for the MCITP: Database Administrator certification," Oden added.

The Boson ExSim-Max exam simulations and kits are available online at www.boson.com, or you can call 877-333-EXAM (3926) for more information.

Boson Software, LLC is a privately held company with offices in Tampa, Fla. and Nashville, Tenn. Boson specializes in providing robust learning solutions, including the NetSim™ Cisco® network simulator and the ExSim-Max examination preparation materials used by individuals, businesses, academic institutions and government entities around the world. Through its affiliate Boson Training, LLC, Boson offers instructor-led training for Cisco technologies, as well as for security technologies including EC Council's Certified Ethical Hacker™ program.
